In Times of Great Change, our Environmental Magic Will Also Change

COURSE DETAILS:

Faery tradition is an ancient spiritual and sacromagical stream; it has always been concerned with the interaction between humanity and the spiritual forces of the land and sea, leading to a deeper interaction with planetary forces, especially the Earth Light in planetary core.

Drawing on R.J.'s forthcoming faery ritual magic book, *The Further Path*, this workshop takes us into new territory for new times.

The Further Path is a place of hope and inspiration...where powerful forces of regeneration that such Living Creatures embody support us to attune to the core energies of planetary life, revival, continuation, and to the inner Mystery of the Living Creatures. Our sacred planet teems with life, much of it utterly unknown to us. The discovery of new life-forms, and the re-discovery of those thought to be extinct is a powerful spiritual and consciousness-changing process. In this workshop we explore the emergent Inner Mysteries of planetary transformation happening all about us now.

Please bring the following items with you for this course:

- * A small vessel of water from the source nearest to your home (1/2 cup is plenty)
- * One 8 x 11 (or smaller) print or photograph of either a newly discovered Living Creature or a resurgent Living Creature thought to be extinct. *Hint:* There are several news articles circulating now about these discoveries...seek and ye shall find!
